# EXION™ Fractional RF

**Breakthrough  
microneedling RF  
for greater depth  
with less pain.**

## Subdermal remodeling beyond needles

Extended mode delivers the RF energy beyond the needle tip for additional penetration without physical puncturing of the tissue. This helps to reach deeper layers while reducing discomfort.

## Single pass procedure

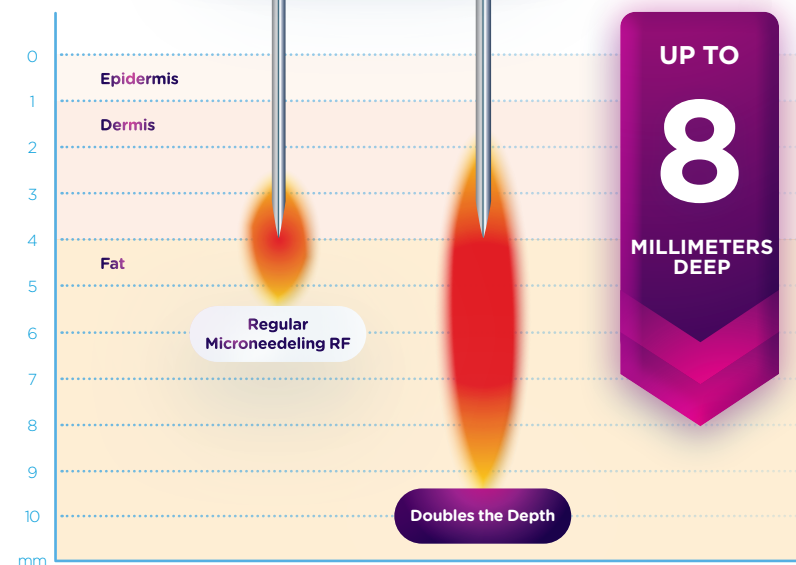

ARTIFICIAL INTELLIGENCE ensures optimal energy delivery allowing SINGLE PASS procedure.

## Extended mode

# EXION™ Face

**The first procedure  
to naturally boost  
Hyaluronic Acid  
without needles.**

## **Simultaneous Monopolar RF and Targeted Ultrasound**

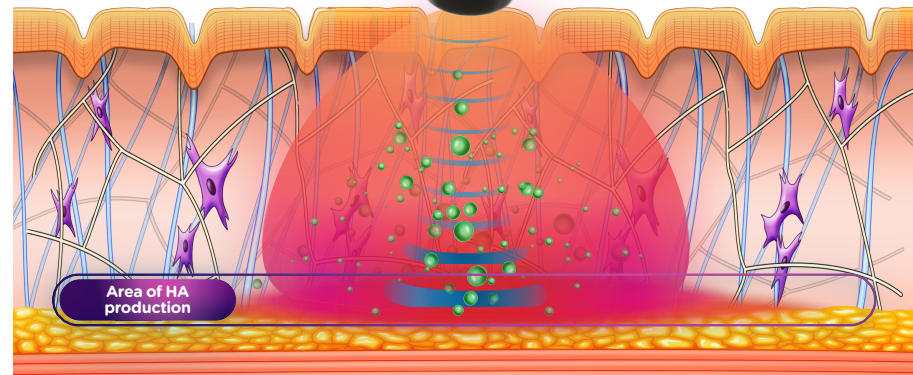

The patented technology treats entire dermis with highest energy accumulation in the reticular dermis.

## **Mechanical and thermal stimulation**

Targeting fibroblasts in this deep layer of the dermis by both heat and mechanical stress is necessary to boost hyaluronic acid; along with elastin and collagen production.

## **Simultaneous RF & Targeted Ultrasound**

# Hyaluronic Acid Naturally

# EXION™ Body

**A versatile body solution designed to treat both the skin & localized fat tissue.**

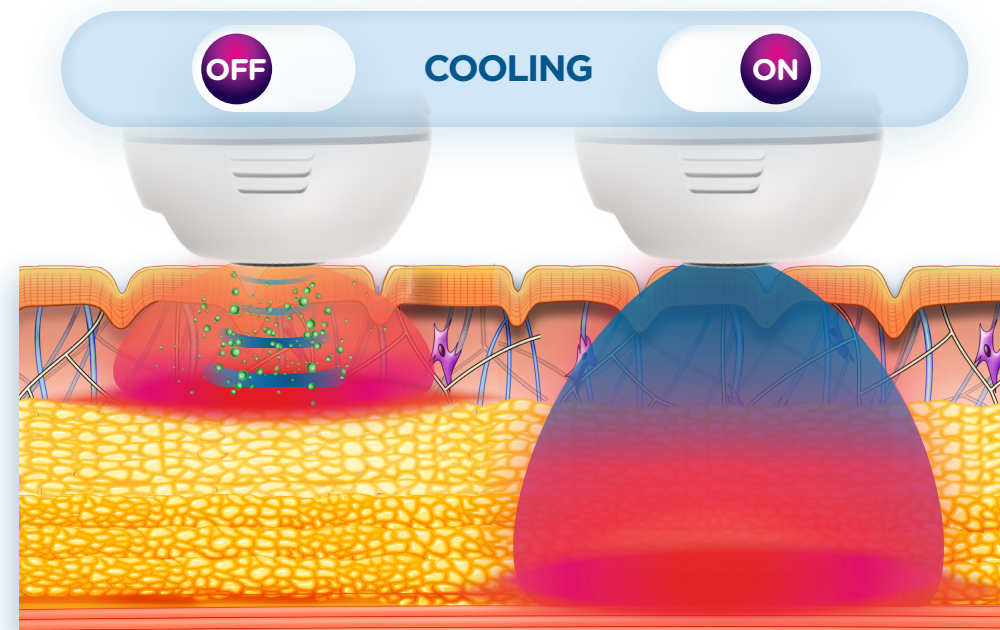

## Addressing skin laxity

Deep subdermal heating induces contraction of the extracellular matrix which results in rapid skin tightening.

## Active cooling for localized fat

Active cooling of the skin allows the RF to increase temperatures in fat to apoptotic levels.

# EMFEMME 360<sup>®</sup>

The shortest non-invasive radiofrequency procedure to treat vaginal laxity and sexual dysfunction.

## Short & Easy Treatment

Homogenous heating of the entire internal and external vaginal area increases blood circulation and results in remodelling of elastin and collagen fibers.

## Temperature Therapy Tracker

Unique Temperature Tracking Technology supports consistent outcomes by enabling the tracking of temperature trends throughout the entire treatment.

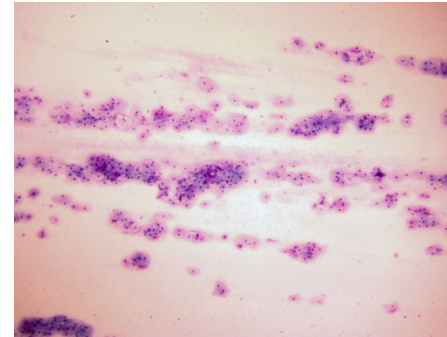

# Vaginal Rejuvenation

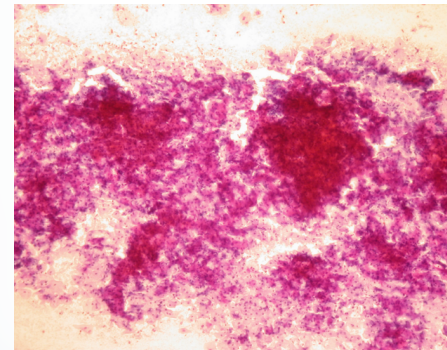

**130%** VAGINAL HEALTH IMPROVEMENT\*

# EXION™ Experience

**David E. Kent, M.D.**  
Dermatologist  
Macon, Georgia

*"The EXION platform has tremendous utility for our practice. The ability to provide RF microneedling at the depth greater than the extent of the needles due to the physics and technology is remarkable and the ability to increase hyaluronic acid content by RF+TUS is a game changer!"*

**Nicole Hayre, M.D.**  
Dermatologist  
McLean, Virginia

*"The EXION has quickly become one of the most-used devices in my practice, especially for its face applicator which helps tighten laxity on both the face and neck. The Exion's superior results have left my other tightening devices collecting dust! Combined with RF microneedling and a fantastic body applicator to reduce fat pockets, the EXION is an indispensable tool for any cosmetic practice!"*

**Yael Halaas, M.D.**  
Facial Plastic Surgeon  
New York City, New York

*"Having all of these applicators on one platform is really a great achievement and a great tool for any anti-aging practice."*

**Lesley Clark-Loeser, MD**  
Dermatologist  
Davie, Florida

*"The EXION platform, with its multiple technologies and hand pieces, enhances my toolbox of energy based devices and my ability to treat the skin and soft tissues of both the face and body with a single device!"*

**Charles Boyd, M.D.**  
Facial Plastic Surgeon  
Birmingham, Michigan

*"The EXION device by BTL is a remarkable new device for healthcare professionals. It offers a unique platform with a multitude of benefits to your patients and your practice. It has been very complimentary to my current offerings and my patients have been very happy with the results."*
