EXILIS SYSTEM™

The most sophisticated delivery of radiofrequency energy to tighten and shape many body parts from head to toe.

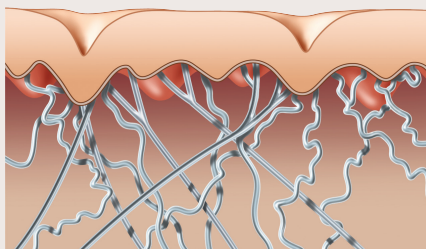

There Are No Costly Consumables

Non-Invasive No Downtime

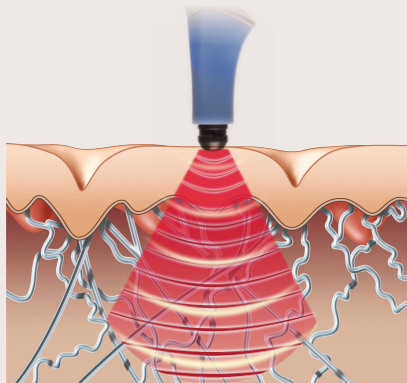

Treats Multiple Areas From Head To Toe

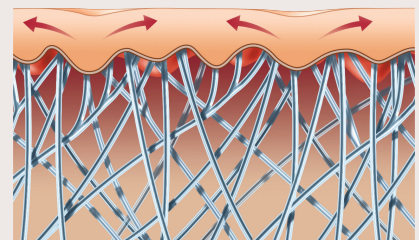

Before

Uneven skin appearance caused by loss of collagen due to the natural aging process.

During

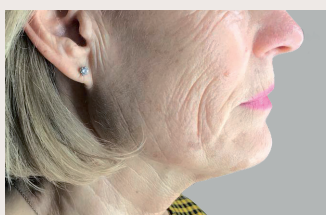

Precise delivery of RF energy for volumetric heating disrupts old collagen fibers and initiates the process of new collagen formation.

After

The end result is deep tissue and skin improvement.

EMBODY®

The leading muscle-toning technology from the creators of the aesthetic muscle market.

HIFEM Patented HIFEM Technology

No Consumables

Operator Independent

Before
Lax muscles with decreased fiber density and volume.

During
EMBODY induces thousands of powerful muscle contractions that are not achievable through any workout.

After
The process results in increased muscle density and volume.

Muscle

Before

Most people struggle with fat concentrated in those problematic areas such as the abdomen.

During

Fat cells are selectively heated, causing their shrinkage and elimination without damaging the surrounding tissue.

After

Fat cells are decomposed and cleared through the lymphatic system.

LOOK BEAUTIFUL FROM EVERY ANGLE

AMBASSADORS

“

“I would estimate that more than 75% of the patients I see who undergo an EXILIS procedure end up doing at least one other body area because they were pleased with their initial treatment in such a short time.”

**Jason Lupton, M.D.,
San Diego, CA**

“

“BTL’s EMTONE allows us to consistently heat the skin to 40-45 degrees °C in half the normal treatment time while maintaining patient comfort. As a result, we are able to achieve results that were only attainable with surgery in the past with absolutely NO downtime.”

**Suneel Chilukuri, M.D., FAAD,
FACMS, USA**

“

“Not only does VANQUISH bring people in the door, in terms of getting ready for the big day, but it also opens the opportunity for them to undergo other procedures such as injectables, laser procedures...”

**Melanie Palm, M.D.,
USA**
